

Notes:

1. The exterior decoration and rain shelter shall be borne by the buyer
2. The fire protection, lighting, and drainage shall be borne by the buyer and shall not interfere with the installation of the equipment
3. The foundation shall be designed and constructed by the buyer based on the on-site geological conditions, bearing capacity requirements, and wind load conditions. The non-shrinkage cement construction shall be coordinated by the buyer
4. The clear height of the above-ground space in the parking equipment area shall not be less than 3.6 meters (excluding rain shelters), and the depth of the pit shall not be less than 4.1 meters
5. Based on the final design

Model	PSHxD-4/D2 (PSH4BP)
Vehicles	≤ 5000X1850X1550X1700
Power supply	3phase 5line: 380V/220 50Hz
